

THE POCHE WEEKLY RECORD.

VOL XLVIII.

PIOCHE, NEVADA, THURSDAY, AUGUST 4, 1898

NO. 31.

The Editor's Prayer.

Almighty and kind Father, who doth from thy throne look down on the government of men and delinquent subscribers, most humbly do we beseech Thee to draw near unto them and whisper a few things in their ears that the statutes forbid us to print. Thou knowest our wants, but the subscriber knoweth them not and seldom steps in to inquire. Let it be known to them that there are patches in the homestead of our pants, and there is an aching void in the front of our back, and that we hunger and thirst and he asketh us not to sup with him. Thou knowest, Lord, that our print paper and ink costs money but the subscriber knoweth it not and careth a darn sight less. Thou knowest we are cold and the subscriber bringeth not the wood he promised, and we are shivering and shaking while he roasteth his shins before the red hot stove of his mother-in-law. Tell him all these things, Lord, and if then he faitheth and bringeth no succor, banish him to the lower regions to dwell among the republican goldbug howlers, and Thine shall be the glory and praise throughout our newspaper career. Amen!—Ex.

Nevada Mine Sale Suit.

Suit has been brought in the Utah United States court against Philo T. Farnsworth of Salt Lake City for the recovery of \$110,751 alleged to have been withheld through fraudulent misrepresentations as the price paid for mining and other property in Ione, Nye county, purchased for the Nevada mining company.

There were two transactions alleged as fraudulent in the complaint. The first alleges that the company furnished Farnsworth \$50,000 to purchase a stock of merchandise and other property at Ione for which he paid less than \$20,000. The second charge is that defendant was intrusted with \$130,000 to purchase the Ione Gold Mining Company's property for which he paid only \$80,000, withholding the balance of the money advanced in both transactions.

The Nevada company, or rather its board of directors, also operate the Nevada Central railway, which runs from Battle Mountain to Austin. The company's mining property is principally situated in the Austin mining district in Lander county.—Silver State.

It is estimated that in Humboldt county alone there is a half million acres of land that could be reclaimed by building storage reservoirs. This would support a population several times that of the entire State at the present time. By all means let nothing stand in the way of building the storage reservoirs.—Silver State.

T. N. Stone, of Elko, and at present deputy State Controller will be a candidate before the Silver Party State Convention, together with C. L. Bray of Reno, opposing H. C. Cutting, the present incumbent, for the nomination for State Superintendent of Public Instruction.

The State of Nevada with a population of 40,000 or less has furnished the United States with about 618 men for the volunteer army to fight the Spaniards. This is proportionally a larger number of troops than has enrolled in the volunteer service in any State in the Union.

It is gratifying to note that the Northern Pacific Railway Company has voluntarily raised the wages of its employees to where they were before the cut of 1894, to correspond with the increasing volume of business transacted by that line under its present able management.

The Foley estate case which has been before the courts in Reno for some time was compromised by Mrs. Smith paying the eastern heirs \$25,000 in cash. This settles a long contested legal proceeding, and Mrs. Smith takes all the property of the estate.

Hon. William Woodburn of Carson City has been mentioned as a candidate for District Judge against Judge Mack, but Mr. Woodburn now announces that he will not be a candidate for that office.—Exchange.

It is said Mrs. Hartley will force her claims as an heir to the Foley estate and has engaged counsel. There may be considerable litigation yet before the estate, though the eastern heirs have been settled with.

A. S. Thompson has arranged to carry Delmuc's fresh ranch butter and will have it fresh every week.

Send your job printing to the Record Office.

John H. Lynch and family moved to Deer Lodge on Monday.

W. D. Prewitt returned yesterday to Spring Valley from a trip to Omaha.

Today's stage went north without passengers though travel has been good of late.

The creditors of the Stateline Mining Co are attaching and taking in the personal property of the company, such as wagons, mill and other supplies. A wagon, containing assay material, quicksilver etc. brought over on this side of the line was taken back yesterday and attached.

The floating debt of Spain has increased by 78,186,500 pesetas, compared with the year 1897.

The Nevada Citizen, which has been published at Reno suspends publication this month. Mrs. Williamson and daughter have secured better employment.

A ten cent internal revenue stamp must be attached to each proxy given to attend either of the State Political conventions this year, in order to be valid.

Hon. William Woodburn has been mentioned as a candidate for district judge of the first district, but authorizes the announcement through the Carson Appeal that he is not a candidate for that office.

Beckwith Burned

The little town of Beckwith, Nev., was wiped out by fire on Friday, and everything except the church and schoolhouse went up in smoke. It was a pretty little mountain town. The loss is estimated to be between \$25,000 and \$50,000, says the Reno Gazette. The buildings burned included Lafranchino's hotel, O'Neill's store, the Masonic hall, livery stable, blacksmith shop, Sierra Valley depot and several dwellings. The population of the place is between 500 and 600.

THE NEWSPAPER LAW.

All Subscribers Should Read the Following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrearages are paid.
3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.
4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncollected for, is prima facie evidence of intended fraud.
6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrearages are sent to the publisher.
7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuses to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders their postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

Notice.

The undersigned has been appointed agent of A. Mandich and all persons knowing themselves indebted to said A. Mandich will arrange to pay their claims to the undersigned and save costs.

Two Millions a Year.

When people buy, try, and buy again it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved that Cascarets are the most delightful bowel regulator for everybody the year around. All druggists 10c, 25c a box, cure guaranteed.

The Deer Lodge people have heard nothing from their petition to have the through mail run that way from Stateline and Pioche. With work resumed at the Ross mine it will be an easy matter to have the change in route take place.

Yesterday afternoon while coming down the slope east of Panaca E. Gardner, a teamster, was thrown from his wagon by a jolt, and falling to the ground, broke his right arm an inch above the wrist joint. Dr. Campbell set the fractured limb this morning.

F. E. Kimball received word at the Ross mine yesterday that work would be resumed there on the 10th. inst. and that the work of building the mill would be proceeded with. Just who are interested, or what arrangements have been made is not known, but it is said Dan McLeod will be foreman at the mine while Dr. Nelson will personally supervise generally. That report is encouraging and if the property opens up as anticipated Deer Lodge will be an active camp this fall.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day: 10c, 25c, 50c. Sample and booklet free.

GIANTS OF PATAGONIA.

The Tehuelche Tribes Average Nearly Six Feet for Each Man—Great Hunters.

The tribes to the east of the Cordilleras, in southern Patagonia, belong to Aravian stock and are a superior race. The Tehuelches—as they call themselves—of southern and eastern Patagonia are the people whose unusual stature gave rise to the fables of early days that the natives of that region were giants, averaging nine or ten feet in height. It is a fact, says the Boston Transcript, that they are the tallest human beings in the world, the men averaging but slightly less than six feet, while individuals of four to six inches above that mark are not uncommon. They are in reality by no means savages, but somewhat civilized barbarians. They are almost unacquainted with the use of firearms, notwithstanding some contact with the whites, but they have plenty of horses and dogs. Unsurpassed hunters, they capture the guanaco and the rheu, or South American ostrich, and from the skins of these and other animals they make clothes and coverings for their tents. They make beautiful "capes," or mantles, or furs and feathers, which are highly prized by Europeans and find a ready market, most of the proceeds being spent for bad whisky, which is brought into the country in quantities by traders.
